

# Day 2

## Workflow and Github

Solveig Bjørkholt

28. June 2022

### Plan for today

#### What we will learn today:

- What R and RStudio is.
- Writing and running code.
- Calling functions.
- Introduction to Rmarkdown and Jupyter Notebooks.
- Paths and directories.
- Github

#### What we will do today:

- Set up a shared repository.
- Work with version control.

### What is R and RStudio?

You can also embed plots, for example:
