

Day 2

Workflow and Github

Solveig Bjørkholt

28. June 2022

Plan for today

What we will learn today:

- What R and RStudio is.
- Writing and running code.
- Calling functions.
- Introduction to Rmarkdown and Jupyter Notebooks.
- Paths and directories.
- Github

What we will do today:

- Set up a shared repository.
- Work with version control.

What is R and RStudio?

You can also embed plots, for example:
